HM&A # 28 Complete in Thee

Part Two

"New Age 'teachings' are characterized by an emphasis on monism, relativism, individual autonomy, and the rejection of the Judaeo-Christian emphasis on sin as the ultimate cause of evil in the world. Instead, New Age posits lack of knowledge and awareness as the root of humanity's problems. It is eclectic in style, gathering in a wide range of people and teachings if they reinforce the central concern. "
